Mobility Solutions Summit

Shared-use Mobility & Better Practices

9:00 am—4:30 pm

Summit Program

http://www.nymobilitymanager.org/mobility-solutions-summit.html

Ver 0620 R1
Welcome to the 2016 Mobility Solutions Summit in Ithaca, NY.
The Summit explores innovative mobility solutions. It’s organized around two themes—shared-use mobility and better practices.

- Shared-use mobility includes bikeshare, carshare, and ride-sourcing enabled by innovative technology and business models.
- Better Practices showcases strategies for improved service delivery, customer experience, and sustainability. Better Practices includes a wide spectrum of topics from active transportation to service strategies to state policies.

The Summit will share knowledge of mobility concepts and how they can be applied in urban areas, and rural communities in Upstate NY. We look forward to seeing you in Ithaca.

Dwight Mengel, Chair, Steering Committee, 607-274-5605

The Mobility Solutions Summit is one of three events in Ithaca during June 23-25. The National Center for Mobility Management is conducting its Design Thinking Workshop for creating mobility solutions for Rides to Wellness concurrent with the Summit. Workshop registration is closed.
The third event is TransportationCamp Ithaca on June 25 at Cornell University. This unconference is usually held in NYC, Boston, Washington, San Francisco, etc., so the Ithaca event is readily accessible to Upstate.
Affordable. We want the Summit and TransportationCamp to be affordable to individuals and organizations. The events are eligible for RTAP support through NYSDOT.

- Regular registration for the summit is $35.
- You can add TransportationCamp for $5, to $40. Further, you can give your registration to another person to attend in your place.
- Organizations can save 25% off two or more registrations when you register on Eventbrite using this link.

**Summit Information:**

1. Location: Cinemapolis Theater, 122 E. Green St., Ithaca, NY 14850
2. Registration Fees: $20/1-day, $35 Summit, $40 Summit + TransportationCamp (6/25)
   - Register with a credit card
   - Register with a purchase order
3. Online Registration Deadline: **June 20, 2016**
4. Parking: Green St. Garage is located on E. Green St., after the Cinemapolis marquee.

---

**Organizers**

Tompkins County, Shared Mobility, Inc., Cornell University Transportation & Mail Services, Ithaca-Tompkins County Transportation Council, Ithaca Carshare, Cornell Cooperative Extension of Tompkins County, BikeWalk Tompkins, Downtown Ithaca Alliance & National Center for Mobility Management.

SESSION DETAILS: DAY 1

Better Practices on Day 1 includes two related sessions on active transportation and community building, discussing the business model for the largest volunteer driver program in Upstate NY (VTC), issues in creating regional services, public engagement with people facing transportation barriers due to limited income and limited English proficiency, services provided by National RTAP, using formal and informal community mobility hubs and the application of the Americans with Disabilities Act (ADA) to new mobility services.

The day ends with a reception and a film festival.

9:00-9:15 Session Day 1-1  
Welcoming Remarks  

9:20-10:20 Session Day 1-2 (SUM)  
Title: Shared Mobility Approaches for Small and Medium Sized Cities  

Moderator:  
Creighton Randall, Program and Development Director, Shared-Use Mobility Center  

Description:  
This panel session will focus on adapting shared-use mobility systems to the unique needs of small and medium sized cities and rural communities. The discussion will feature case studies from panelists, including examples of community-based carsharing models for small and medium cities, flexible bikeshare demonstration projects, micro-transit and ride-splitting pilots, and opportunities for multimodal payment integration.

10:30-11:00, Session Day 1-3: Talk format  
Title: A Municipal Sidewalk Maintenance Policy that works (Active Transportation)  

Speaker: Tim Logue, Director of Engineering, City of Ithaca  

Description:  
In Jan. 2014, the City of Ithaca’s new sidewalk policy went into effect. The program moves away from burdening individual property owners with the entire cost of sidewalk installation and maintenance for sidewalks adjoining their property, towards the creation of 5 Sidewalk Improvement Districts (SID) funded by an annual sidewalk assessment fee. Results of the new policy will be discussed.

10:30-11:00, Session Day 1-3: Talk format  
Title: The Volunteer Transportation Center’s Business Model (serving Jefferson, Lewis & St. Lawrence Counties)  

Speaker: Sam Purington, Executive Director, VTC  

Description:  
What is the VTC and how does it thrive? A description of the business of the largest volunteer driver program in New York State.
DAY 1 continued..

11:05-Noon, Session Day 1-4 Interactive Panel  Theater 3
Title: Empowering and Celebrating Community Biking & Walking (Active Transportation)

Moderator: Tom Knipe, Principal Planner/Tourism Program Director, Tompkins County Dept. of Planning
Panel: Tim Logue, Director of Engineering, City of Ithaca; Susan Powell, Active Transportation Coordinator, Cornell University; Vikki Armstrong, Acting Director, BikeWalk Tompkins;

Description:
What happens when a city adopts a complete streets policy and a bicycle plan, which is aligned with community advocacy for biking and walking, and celebrated with successful street festivals? You make change, but nothing is easy or straightforward.

11:05-Noon, Session Day 1-4 Interactive Panel  Theater 4
Title: Creating Regional Mobility Services: Vision Meets Reality

Moderator: Fernando deAragon, Exec Dir., Ithaca-Tompkins County Transportation Council
Panel: Megan Pulver, Coordinator, Way2Go Regional, Cornell Cooperative Extension of Tompkins County; Jim Arey, Exec Dir, Elmira-Chemung County Transportation Council; Nick Cecconi, Assistant Director Mobility Management of SCNY.

Description:
What challenges are faced when developing or implementing regional mobility services? How do you transition from local to regional services? The session will discuss pilot projects for intercounty bus service, community mobility education, volunteer driver programs, ridesharing, and more.

1:20—2:00 pm Session Day 1-6: Roundtable (SUM)  Theater 3
Title: Flexible Bikeshare Models – Bringing Pilots to Scale & Leveraging New Business Models

Facilitators:
Cassie Halls, Project Associate, Shared-Use Mobility Center
Rachel Heckl, Director of New Initiatives, Shared Mobility Inc.

Description:
Flexible bikeshare systems do not operate on a dock-based model but instead allow users to park out of dock using on-board locking systems and tech.

In this roundtable session, facilitators will both expand upon operator interviews conducted earlier this year as well as dive into questions previously collected from participants so that panelists can drill down on specific facets of new models for flexible bikeshare implementation in small and midsize cities, as well as potential, emerging business models and scaling strategies for flexible bikeshare. Panelists will also discuss different implementation, funding, and operational roles of MPOs and transit agencies as well as private vendors.
DAY 1 continued.

1:20-2:00, Session Day 1-6 Interactive Panel
Title: Learning from people who can’t get where they need to go.
Moderator: Karim Beers, Coordinator, Get Your GreenBack/Tompkins
Description: Initial insights from surveys by and with people with limited transportation options about transportation challenges & solutions, with a special focus on rural poor, recent immigrants, and people re-entering community life after prison or jail. Presenters: Khalil Bey, Bailtal (Hsa Moo) & Ruth Williams.

2:05-2:40, Session Day 1-7 Talk format (SUM)
Title: Uber & Lyft 101 & New Yorkers for Ride-Hailing
Description: The first part of this session discusses Uber and Lyft as ride-hailing services which use smartphone apps to provide rides to customers and transact payments. Both services want to expand to Upstate New York. Before digging into complex issues of employment, public safety, pricing, competition with taxis, etc., it is important to understand the nuts and bolts of the services. The second part of this session discusses New Yorkers for Ride-Hailing, a coalition of community groups, businesses, civic organizations, advocates and regular citizens who are advocating for affordable, reliable, and safe transportation alternatives for Central, Upstate, and Western New York. Tech-based ridesourcing platforms may fill important gaps for residents where public transportation is limited and serve as a flexible source of income for cash-strapped New Yorkers.

2:05-2:40, Session Day 1-7 Interactive Panel
Title: English as a Second Language (ESL) Educators reflect on teaching students to use mobility services.
Moderator: Sophie Somerfeldt, Community Educator, Way2Go, Cornell Cooperative Extension of Tompkins County
Panel: Julie Coulombe, ESL Program Coordinator, TSTBOCES, & Student Services Coordinator
Description: ESL teachers and support staff communicate with Limited English Proficient (LEP) students daily. How easy is it to teach students to use mobility services? How could mobility services improve their ease of use for all people in their communities?
DAY 1 continued..

3:05-3:35, Session Day 1-9: Interactive Panel  
Title: New Mobility Services and the ADA  
Theater 3

Moderator: Deana Bodnar, Program Development Specialist, Tompkins County Dept. of Social Services  
Panel: Larry Roberts, Director of Advocacy, Finger Lakes Independence Center; Joseph G. Rappaport, Consultant to United Spinal Assoc.

Description:
Advocates for the Americans with Disabilities Act (ADA) will advance arguments how the Federal Civil Rights Law applies to new mobility services.

3:05-3:35, Session Day 1-9 Talk Format  
Title: Meet National RTAP—Rural Transit Assistance Program  
Theater 4

Speaker: Jerry Emanuel, Resource Center Manager, National Rural Transit Assistance Program

Description:
National RTAP is a program of the Federal Transit Administration dedicated to creating public & rural transit solutions in America through technical assistance, partner collaboration and FREE training and other transit industry products. The session will inform people about the full range of services RTAP provides.

3:40-4:20, Session Day 1-10: Rapid Talks  
Title: Rapid-Talks (5 minutes, max 15 slides)  
Theater 3

Moderator: Jim Arey, Exec. Dir., Elmira-Chemung Transportation Council

Description:
The subjects are varied and directly relate to mobility challenges, facts or issues. Speakers and subjects will be printed in the final program. Will they finish on time? That’s the drama.

Gene Kosoy— Installing bus shelters  
Nick Ceconni

Nancy Hampel—  
Greg Gizewski

Larry Roberts  
Sophie Somerfeldt

5:10-6:40, Walk to Reception

A reception around the block from the Summit will take place. Food & beverages will be served.

7:00-9:00, Streets Alive! Ithaca Film Festival Redux  
Theater 5

Re-showing of the 2016 Streets Alive! Film Festival. Free and open to all. Come see new and inspiring films about bikes, vibrant city spaces, cool transportation, fun ways to build community and more. The program includes a selection from Streetfilms, indie films, and re-screen Film By Bike festival favorites.
Streets Alive!

FILM FESTIVAL

THURSDAY
June 23, 2016
Films start at 7:00 pm
CINEMAPOLIS

FREE & open to the public, door prizes & free popcorn for the first 75 people!

FILMED BY BIKE
Bike-themed shorts from around the world

Come early to talk to BIKEWALK TOMPKINS about priorities for biking and walking in our area

STREET FILMS
Films about liveable streets and moving beyond the automobile

filmedbybike.org@streetfilms.org
cinemapolis.org@120 East Green St, Ithaca, NY
bikewalktompkins.org
SESSION DETAILS: DAY 2

Better Practices on Day 2 starts with one innovative local taxi app and five rapid fire discussions, then progresses to state mobility programs from two of New York’s neighbors, and time for open discussion and reflection. Following sessions delve into MaaS, community trip management, real-time passenger information, and travelling back from the future of mobility management. We’ll reflect on what we’ve learned in an idea café or see bus technology to avoid collisions with pedestrians and cyclists. Welcome to Day 2.

9:00-9:30, Session Day 2-1, Talk Format        Theater 3
Title: Developing Apps – The Story of Red Routes taxi app

Speakers: John Kadar, Owner, Ithaca Dispatch, Inc. and Brian Schiff, CEO, Red Routes

Description:
Presentation and discussion of a collaborative effort to create a taxi app initially marketed to communities with colleges & universities.

9:00-9:30, Session Day 2-1, Talk Format        Theater 4
Title: Mobility as a Service (MaaS)

Speaker: Carol Schweiger, President at Schweiger Consulting LLC and Chairperson, New England ITS

Description:
Imagine selecting and paying for mobility services when you need it. Mobility as a Service (MaaS) uses smartphone apps, other new technologies and collaborative partnerships to create systems of seamless mobility services. That’s the vision, and it is becoming a reality here and in Europe. The presentation will focus on the opportunities associated with this mobility solution. See Smile - Simply Mobile from Vienna, Austria and Mobility Shop from Hannover, Germany.

9:40-10:25, Session Day 2-2 (SUM)        Theater 3
Title: Volunteer and Community Transportation – Potential Applications of Shared Mobility

Moderator:
Rachel Heckl, Director of New Initiatives, Shared Mobility Inc.

Description:
Volunteer Transportation Organizations (VTOs) and similar models provide a valuable and cost-effective service to clients – often elderly and/or disabled individuals – who have limited ability to access public transportation. These organizations are often grassroots in nature and value helping their home communities. However, some may also be willing to provide rides for Medicaid patients or take on other contract work, and expand their service areas in order to do so. VTOs vary dramatically in size, from around 50 clients to 12,000 clients; this suggests that the VTO model may be viable in communities of any size. Panelists will speak about how they see shared mobility technologies supplementing and enhancing their services and the role of innovation in volunteer transportation.
DAY 2 continued..

9:40-10:25, Session Day 2-2, Panel Discussion via Skype  
Title: Massachusetts Programs for Travel Brokerages & Mobility Management  
Theater 4

Moderator: Dwight Mengel, Chief Transportation Planner, Tompkins County
Bill McGuinness, Transportation Manager, Human Service Transportation Office will present on the Human Service Transportation Brokerage in Massachusetts.
Rachel Fichtenbaum, Mobility Information Specialist, MassMobility, will present on MassMobility.

Description:
The State of Massachusetts practices collaboration among state agencies to centralize how human service trips are procured and technical assistance and support for mobility management is provided. The speakers will discuss programs and lessons learned. See Massachusetts Brokerage and Coordination Model.

10:35-11:20, Session Day 2-3: Interactive Panel (SUM)  
Title: “SUM Champions” in Small and Midsize City Transit Agencies  
Theater 3

Moderator: Scott Sopczyk, General Manager, Greater Glens Falls Transit

Description:
We know shared mobility systems are an extension of transit service – but what does that really mean, especially for small and midsize transit systems? While all transit agencies are faced with a range of mobility opportunities and barriers to increasing ridership and optimizing routes, the challenge seems particularly acute for less dense cities and rural communities. Whether grappling with the emergence of ridesourcing companies or pondering their reinvention as a full spectrum mobility service, public transit agencies have a lot to consider. This workshop session will allow for participants to learn and engage on the topic of implementing shared mobility programs and public-private mobility partnerships. Innovative shared-use mobility “champions” can often face barriers, as well as new opportunities when trying to connect and partner with shared mobility providers. See APTA Report: Shared Mobility & the Transformation of Public Transit, 2016.

10:35-11:20, Session Day 2-3, Talk Format  
Title: Pennsylvania's Roll-out of its One Call-One Click Pilot  
Theater 4

Speaker: Christopher Titze, Cambridge Systematics, Cambridge, MA

Description:
How can a state-wide One Call-One Click service be developed and implemented? PA is finding out. Hearing a continuing story of implementation from south of the border.
11:30-Noon, Session Day 2-4, Talk Format  
**Title:** Service Routes and Community Transit Hubs: Right Sizing Transit  
**Speaker:** Steve Fittante, Senior Associate, RLS & Associates, Inc.,  
**Description:** The challenge of increasing transit efficiency and integration with human service transportation are particularly significant in lower density urban and small urban areas. This session discusses US case studies on the benefits of the Swedish Service Route concept and the complementary benefits of developing informal transit hubs to promote integration of local and regional transit services.

11:30-Noon, Session Day 2-4, Moderated Interactive Discussion  
**Title:** Open Policy Discussion  
**Moderator:** Sheryl Gross-Glaser, Assistant Director, National Center for Mobility Management  
**Description:** This session provides time for open discussion on Massachusetts and Pennsylvania’s policy direction for coordinated program development and implementation, and reflect that change is possible, even in New York. Ideas from this session will feed into the Idea Café, the final session of the day.

1:15-1:45, Session Day 2-6, Talk Format  
**Title:** Next Steps in Transportation & Health Care Reform  
**Speakers:** William McDonald, Co-Chair, Transportation Committee, Finger lakes Performing Provider System (FLPPS).  
William Wagner, Director of Mobility Management of South Central NY  
**Description:** The speakers will discuss why this is a critical window of opportunity for mobility managers and operators to engage health care providers to plan how mobility services will be integrated with emerging healthcare systems by 2020.
DAY 2 continued..

1:15-1:45, Session Day 2-6, Panel & Audience Discussion
Title:  Who is Carrying the Ball on Rural Mobility Management?

Moderator: John Reel, Rural Mobility Specialist, NYSDOT
Tina Hager, Transit Specialist, Elmira-Chemung Transportation Council
Dwight Mengel, Chief Transportation Planner, Tompkins County Dept. of Social Services

Description:
Who carries the ball for RURAL mobility management? Who’s the QB? Who does your game plan? What forces have formed you and will likely change you. Any concussions come to mind? (Football references intended.) Audience participation encouraged.

1:55-2:45, Session Day 2-7, Moderated Panel
Title: Lessons of Real Time Passenger Information, Google Transit and GTFS

Moderator: Carol Schweiger, President at Schweiger Consulting LLC and Chairperson, New England ITS
Panel: Josh Gardner, CAD/AVL System Coordinator, CENTRO, Syracuse, NY, Jerry Emanuel, Resource Center Manager, National RTAP

Description:
Real-time passenger information answers a critical question—Where’s my bus? Only the four Upstate regional transportation authorities offer this service on a system-wide basis. Otherwise, Cortland Transit has a pilot project underway. In Tompkins County, TCAT is implementing a large ITS project which includes real-time passenger information. Other fixed-route and demand response services are considering similar projects.

The panel will look at the benefits, costs and lessons of deploying this service, for fixed-route and demand response services. Further, Google Transit and GTFS will be examined as ways smaller fixed route operators can put their systems online using tools provided by National RTAP.
DAY 2 continued..

1:55-2:45, Session Day 2-7, Moderated Panel  
**Title:** Mobility & Mobility Management from 2025  
**Theater 4** 

**Moderator:** John Reel, Rural Mobility Specialist, NYSDOT  
**Panel:** Sheryl Gross-Glaser, Assistant Director, National Center for Mobility Management  
Gennadiy Kosoy, Civil Engineer, P.E., NYSDOT  
Sophie Somerfeldt, Community Educator, Way2Go, Cornell Cooperative Extension of Tompkins County  

**Description:**  
We’ve time warped to 2025. What’s happening with mobility, mobility management and why? After a rapid round among panelists, open discussion follows.

3:10-4:25, Session Day 2-9, Moderated Interactive Discussion  
**Title:** Idea Café: Where do we go from here?  
**Theater 3** 

**Co-Moderators:** Sheryl Gross-Glaser, Assistant Director, National Center for Mobility Management  
Creighton Randall, Program and Development Director, Shared-Use Mobility Center  

**Description:**  
What did we learn? What are insights for next steps? Can we develop a consensus on priorities? What do we do now? How do we stay connected?

3:10-4:25, Session Day 2-9, On-Street, In-Bus, Demonstration  
**Title:** On-Street Demonstration of Bus Collision-Avoidance Technology  

**Description:** On-street demonstration of MobilEye Shield, by Rosco Vision Systems, Jamaica, NY.

“The MobilEye® Collision Avoidance System with Pedestrian and Cyclist Side-Sensing is the latest technological advancement for preventing vehicle-to-pedestrian incidents. Dynamic bus operating conditions in urban, suburban or rural environments demand the highest of visibility when approaching pedestrians, cyclists and complex bus turning patterns. The new multi-vision-sensor solution includes heavy-duty exterior vision sensors and housings capable of withstanding the rigors of bus operation and bus wash environments, while displaying driver alert information that is easily seen and understood.”
Turning the Summit into Resources

The Mobility Solutions Summit will have an afterlife. The post-summit objective is to provide a working resource of the sessions, related publications and websites, accessible to everyone. All of the sessions will be digitally recorded, edited and posted. The session summaries will be hyperlinked to online references and publications. We are creating a template for mobility business models to be completed and posted after the Summit. Accessible information, especially videos, can really prove effective to communicating concepts to a group. We’ll do our best to keep the website active. I hope we will have future summits on mobility solutions. The topic will not retire or go away anytime soon.

We need to have a collaborative online workspace. This may be a new basecamp site. We’ll conduct a poll of attendees and others’ interests. Your feedback is important to us. Please complete feedback forms.

Thank you for attending.

Dwight Mengel, 2016 Summit Chair.
transportationcamp
Ithaca 2016

Saturday, June 25th
8:00am - 4:00pm
Cornell University
